

BENEFITS OF AILU MEMBERSHIP

The Association of Industrial Laser Users (AILU) was founded in 1995 and has grown to over 300 members with an international footprint.

OUR VISION is to maximise the benefits of laser technology to society by **connecting**, **empowering** and **guiding** new and existing users of industrial lasers.

To do this **OUR MISSION** is to support the **progression** and **adoption** of laser technology and its application across research and industry.

NETWORK

Connecting people to collaborate

- Preferential access to AILU's industry-wide conferences and events.
- Opportunity for engagement, collaboration and lead generation.

KNOWLEDGE

Updating know-how to stay current

- Workshops, webinars, exhibitions and publications.
- Exploit the latest technology, applications, research and business landscape.

CAREER

Employers and employees matched

- AILU connects experienced candidates with organisations needing to recruit.
- A valuable resource for advice and mentoring.

RESEARCH

Enabling and reporting research

- AILU members are at the forefront of laser technology and applications research.
- AILU's quarterly magazine connects researchers with industry professionals.

BUSINESS

Growing profit and turnover

- Ideas for business improvement, best-practices, grants and supply chain development.
- Surveys and reports give valuable insights into the industry.
